Dear Parents,

In April, fifth grade students will be taking the Math FSA (Florida Standards Assessment). We are working very diligently to prepare them for this assessment in the classroom by teaching them the standards. We are also utilizing computer labs and classroom instruction time to teach them the online tools that they will need to know how to navigate in order to answer questions correctly. Even though we are working in class on these skills, it would be great if you could practice them at home too using the link below. If you have any questions, please feel free to contact your child's homeroom teacher.

Thank you for your support,

The Fifth Grade Teachers

<http://www.fsassessments.org/training-tests>

Access the training test here.

1. Log in as guest.
2. Select grade level and click "yes".
3. Choose the assessment you wish to take.

This takes you to the answer key if you are just planning on using the test to practice using the tools.

This resource reviews how to log in and explains how to navigate the test.

Other practice assessments are available for practice.
